Saturday, Oct. 23	8:30 am - 2:00 pm

Where: SD 79, Cowichan Valley (Duncan, BC)
School TBA

A decade into the 21st century, educators are faced with both challenges and opportunities. This 2 day workshop is designed to assist you in confronting those challenges and exploring the unimaginable opportunities of education for all learners in the digital age. Our sessions will provide, practical, hands-on, digital age solutions to reach and teach all learners by utilizing the Universal Design for Learning (UDL) framework. UDL provides a blueprint for creating flexible goals, methods, materials and assessments that enable students with diverse needs and learning styles to succeed in an inclusive, standards-based, digital classroom.
